

Disabled learners* and parents/ whānau – we need your voice!

Please share your thoughts and experiences of school or early learning in our short online survey. This will help us understand what is or isn't working to support disabled learners, and what needs to change.

Choose from the following links to have your say. The survey will take about 10-20 minutes.

- [Survey for learners between 3-6 years old at early learning service](#)
- [Survey for learners at primary and secondary school](#)

Need assistance? If you or your child needs help to complete the survey please contact office_for_disability_issues@msd.govt.nz. We can help with things like NZ Sign Language interpretation or someone to help read or explain the questions to you over the phone or by zoom.

*Disabled Learners include all those children and young people with significant needs for support and adaptations/accommodations to enable them to thrive in education. We are using this term as it is aligned with the NZ Disability Strategy.

Fill in the survey by Monday March 21 to have your say
